

19/04257/FULL

The Old Doctors House

The siting of a green house within the curtilage of the grade II listed building. Within the conservation area and in a key approach view as defined by the neighbourhood plan.

The removal of the existing shed would be seen as improving the setting of the listed asset and a benefit to the conservation area. Key will be the detail of the aluminium glazing bars in so much that they reflect the lightness associated with the more traditional timber elements.
