

20/03499/LBA, The Old Manor House, The Hill, BA2 7WG

Key points:

- Proposal is for the regularisation of a roof hatch, which has already been installed.
- Type of application: Listed Building Consent

Recommendation:

Comment only.

The roof hatch is visually unobtrusive, and the works are beneficial for the whole building as they were carried out to allow access to the roof for maintenance. We are content to defer to the listed building officer's judgement.
