

Memorandum of Understanding for The Tynning Proposal

The Friends of Freshford and Freshford Parish Council are committed to working together to implement the Ecology and Diversity Proposal for The Tynning, which was supported by the community and approved by the Parish Council.

The Friends of Freshford will work closely throughout the project with Freshford Parish Council to ensure the plans are actioned as stated in the proposal.

The Parish Council will nominate two councillors to liaise with the Friends of Freshford on the proposal; this naturally sits within the areas of responsibility for the Natural Environment and the Climate and Nature Emergency roles.

The Friends of Freshford will deliver a monthly report to the Parish Council confirming the work that has taken place in that month and providing detailed implementation plans for the upcoming month. Any substantive additions or changes to the proposal will be submitted for agreement to the Parish Council.

The Friends of Freshford will liaise with Freshford Parish Council's nominated councillors ahead of undertaking any work on The Tynning.
