

# Tying Bollard trees proposed layout

10<sup>th</sup> September 2021

## Outline

Friends of Freshford (F of F) have requested that FPC provides a plan of where the x18 approved bollard trees can be planted due to the known presence of the electricity cable and water pipe.

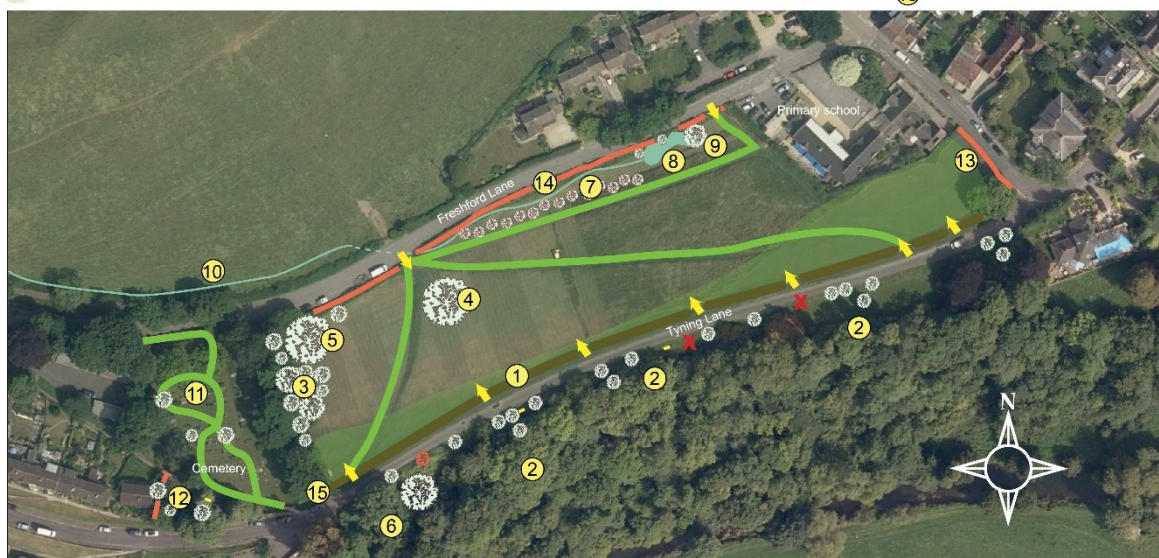

Feedback from the Tying proposal included a wish for the bollard trees to not be so uniform, and in a direct line as in the proposal, and thus more in keeping with the rural aspect of the Tying.

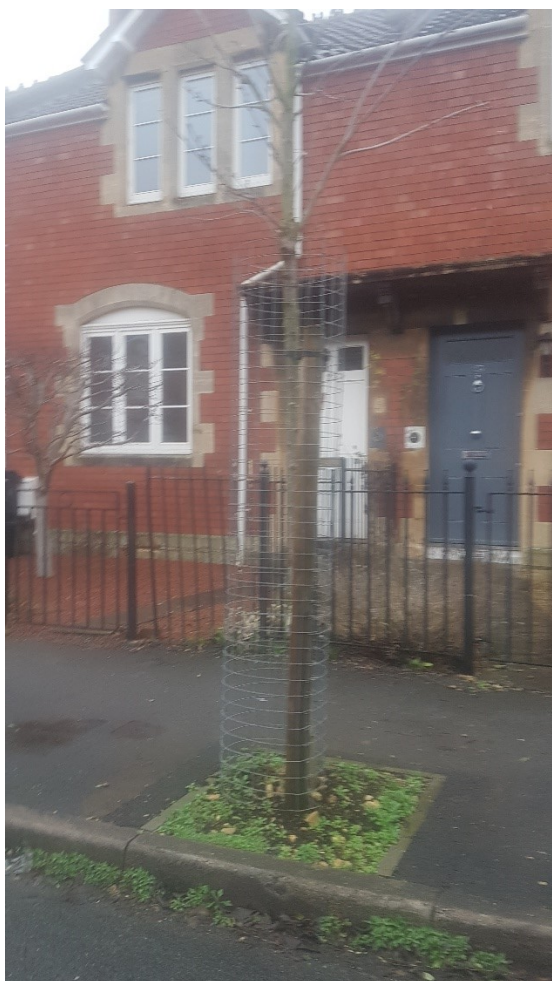

The following plan is based on:

- The survey undertaken by Solum Surveying identifying the location of the water pipe (2m – 3m from road and depth of 440mm – 500mm) and electricity cable (600mm – 1m from road and depth of 400mm)
- Meetings on the Tying with Cllrs JA and TP following several failed attempts to get professional landscapers to provide a plan.
- Input from passing residents (including those from the Hort Soc)
- Space has been allocated for a potential additional passing place should the need arise.
- One of the purposes of the bollard trees is to stop cars driving onto the grass
- Case study evidence in planting distances from the road edges in B&NES (25cm in Bathwick) and additional consultation with Chew Valley Trees.
- A wish to keep the area near the Copper Beech open and not enclosed.
- Future growth of nearby trees.
- Holes for trees will be dug carefully by hand

PROPOSED SITES OF BOLLARD TREES September 2021

<p><b>Tying Lane</b></p> <p>① Un-mown hump (biodiversity strip)</p> <p>② 18 x Bollard trees</p>	<p><b>NW corner copse</b></p> <p>③ 10 x Small to medium native trees</p> <p><b>Heritage Trees</b></p> <p>④ 1 x Oak</p> <p>⑤ 1 x Walnut</p> <p>⑥ 1 x Lime</p>	<p><b>Community Orchard</b></p> <p>⑦ 10 x apple trees &amp; 4 x plum &amp; cherry trees</p> <p><b>Water and wetland</b></p> <p>⑧ Wildlife pond</p> <p>⑨ Wetland-tolerant trees x 3</p> <p>⑩ Stream</p>	<p><b>Cemetery</b></p> <p>⑪ 3 x small flowering trees</p> <p>⑫ 3 x small trees</p> <p><b>Hedges</b></p> <p>⑬ Native hedge</p> <p>⑭ Existing protected native hedge</p> <p>⑮ War memorial</p>
---	--	--	--

Powlett Road, Bathwick trees planted in winter 2020 <25cm from road edge.

4 x *Crataegus monogyna stricta*  
(upright hawthorn).

5 x *Sorbus*

'Eastern Promise'.

4 x *Malus* 'Evereste'.

5 x *Malus* 'John Downie'.
